Sector Weightings

The listed characteristics, sectors and securities are presented for the City of Ormond Beach General Employees' Pension Plan as of September 30th, 2017. Characteristic, holdings and sector weightings may change over time and may differ between clients based upon their investment objectives, financial situations and risk tolerances. The information provided on the profile pages should not be considered a recommendation to purchase or sell any particular security. There can be no assurance that an investor will earn a profit or not lose money. There can be no assurance that the portfolio will continue to hold the same position in companies described herein, and the portfolio may change any portfolio position at any time. The specific securities identified and described do not represent all of the securities purchased, sold, or recommended by Cambiar and the reader should not assume that investments in the securities identified and discussed were or will be profitable. The one year forecast is included for illustrative purposes and accordingly, no assumptions or comparisons should be made based upon these ratios. The projected ratios are based upon third party sources (FactSet) that are deemed to be reliable, however, Cambiar does not guarantee its accuracy or completeness.

Ormond Beach General Employees' Pension Plan Performance

(as of 9.30.2017)

	3Q17	YTD	1 Year	Since Inception
Ormond Beach General (g)	2.8%	8.3%	20.0%	20.2%

Source: Cambiar Investors. Periods 1 year or greater have been annualized. The performance information represents that of the City of Ormond Beach General Employees' Pension Plan account. Returns are presented gross and net of actual management fees and include the reinvestment of all income. Net returns have been reduced by transaction expenses and by actual investment advisory fees and other expenses that may be incurred in the management of the account. Gross returns have been reduced by transaction expenses. Index returns assume reinvestment of all income, and assume no management, custody, transaction or other expenses. Cambiar's past results do not necessarily indicate Cambiar's future performance and, as is the case with all investment advisors who concentrate on equity investments, Cambiar's future performance may result in a loss. See Disclosure - SMID Value Benchmark for additional information.

Biographies – Investment Team

SMID Value Benchmark: The Russell 2500 Index is a market capitalization weighted index that consists of the smallest 2,500 companies in the Russell 3000 Index, which includes 3,000 of the largest U.S. stocks. The Russell 2500 Value Index measures the performance of those Russell 2500 companies with lower price-to-book ratios and lower forecasted growth values. Both the Russell 2500 and Russell 2500 Value indices are broadly based indices which reflect the overall market performance and Cambiar's returns may not be correlated to the indices.

Russell: Russell Investment Group is the source and owner of the Russell Index data contained or reflected in this material and all trademarks and copyrights related thereto. The presentation may contain confidential information and unauthorized use, disclosure, copying, dissemination or redistribution is strictly prohibited. This is a presentation of Cambiar Investors, LLC ("Cambiar"). Russell Investment Group is not responsible for the formatting or configuration of this material or for any inaccuracy in Cambiar's presentation thereof.

GICS: Sector weightings for portfolios are determined using the Global Industry Classification Standard ("GICS"). GICS was developed by and is the exclusive property and service mark of MSCI Inc. ("MSCI") and Standard & Poor's ("S&P") and is licensed for use by Cambiar. Neither MSCI, S&P nor Cambiar or any third party involved in compiling GICS makes any express or implied warranties or representations with respect to such standard or classification (or the results from use thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability and fitness for a particular purpose with respect to any of such standard or classification. MSCI, S&P and any of their affiliates or third parties involved in compiling GICS shall not have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Appendix A – SMID Value

GIPS Compliance & Verification Status

Cambiar Investors, LLC (Cambiar) is an independent registered investment adviser with the United States Securities and Exchange Commission. Cambiar was founded in August 1973. Cambiar claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Cambiar has been independently verified for the periods from January 1, 1987 through December 31, 2016. The verification reports are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation.

Composite Description

Cambiar's SMID Value Composite was created on July 31, 2010. Prior to November 1, 2014, the composite was named the SMID Composite. Cambiar's SMID Value Composite includes taxable and tax-exempt portfolios valued at \$100,000 or greater, whose records are maintained on Cambiar's systems. Portfolios in the composite invest in equity securities of small- to mid-sized companies. Cambiar's SMID Value Composite includes portfolios that primarily invest in stocks with a market capitalization between \$2 and \$10 billion. The typical number of securities in the SMID Value portfolio is 35-45 holdings. The SMID Value Composite contains proprietary assets.

Performance Returns & Metrics

Returns are presented gross and net of management fees. Gross and net returns have been reduced by transaction expenses. Net returns are also reduced by actual investment advisory fees and other expenses that may be incurred in the management of the account. The gross returns reflect accounts with both gross and "pure" gross performance. "Pure" gross returns, applicable to SMA portfolios, are not reduced by any expenses, which includes transaction costs, and are provided as supplemental information. Net returns for SMA portfolios are calculated by subtracting actual SMA fees reported by the SMA sponsor. Results are reported in U.S. dollars. Composite dispersion is based on gross returns and is calculated using an asset-weighted standard deviation. Dispersion (individual account return differential within the composite) occurs for various reasons, including investment restrictions mandated by the client, which cause an account to be invested differently than a typical, fully discretionary account. Past performance is no indication of future results. All information is provided for informational purposes only and should not be construed as an offer to buy or as a solicitation to buy or sell. A list and description of Cambiar's composites and policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

Cambiar has complete records supporting the composite performance provided in this presentation. For certain periods prior to January 1, 2015, however, Cambiar does not have all of the records that support the basis of the performance for certain non-marketed portfolios and composites that are part of the firm's claim of GIPS compliance. The lack of records for certain non-marketed composites is a result, in part, of third-party computer file deletions or purges and/or the inability of certain sponsors to provide Cambiar with complete historical performance data or system access and the firm's historical record retention or related practices. The firm has performed an exhaustive review to locate such records. The firm is relying on the "Act of God" record exclusion to enable the firm to claim GIPS compliance for these periods.

Investment Management Fees

Cambiar negotiates advisory fees with each individual client or relationship. The annual fees generally range between 0.70% and 1.00% of assets under management. Please refer to our form ADV Part 2A for additional disclosures regarding our investment management fees. Net of fees performance reflects a blended fee schedule of all accounts within the SMID Value Composite. SMA portfolios incur bundled fees that are charged by brokerage firms which sponsor SMA fee programs and that may include transaction costs, investment management, portfolio monitoring, consulting services, and in some cases, custodial service fees. Cambiar clients and mutual fund investors may incur actual fee rates that are greater or less than the rate reflected in this performance summary.

Benchmark Information

Performance results for the SMID Value Composite are evaluated against the Russell 2500™ Index and the Russell 2500™ Value Index. The Russell 2500 Index is a float adjusted, market capitalization weighted index that measures the performance of the 2,500 smallest companies in the Russell 3000™ Index, which consists of 3,000 of the largest U.S. equities. The Russell 2500 Value Index is a float-adjusted, market capitalization weighted index comprised of firms in the Russell 2500 Index that experience lower price-to-book ratios and lower forecasted growth values. These stock indexes assume no management, custody, transaction or other expenses. Both the Russell 2500 and Russell 2500 Value indices are broadly based indices which reflect the overall market performance and Cambiar's returns may not be correlated to the indices. Cambiar's performance, the performance of the Russell 2500 Index and the Russell 2500 Value Index include the reinvestment of all income.
