Subject	CRA 2019 Update: Issues and Opportunities w DSC
From:	Pete Sechler; June 19, 2019

All, please find attached several items relative to our meeting on June 26. This includes the raw scans of our DSC and Public Meeting exercises on Ideas and Priorities. We have also taken this input and tabulated in onto summary excel files, with total 'Dot Vote' counts for each item.

We have then translated that information into a summary memorandum of the topline Big Ideas and recommendations that can form the structure of the CRA Plan Update. These are the items that could be recommended in the plan for future review, study and potential action. We will talk about these items in conversation and also with the use of map and photographic aids in order to focus on each subject and refine the ideas so we are prepared to develop the draft plan report for August.
