

Sec. 2-25. B-4, Central Business Zoning District.

A. PURPOSE: The purpose of the B-4, Central Business Zoning District is to provide for a wide range of uses and facilities in a manner offering optimum design flexibility. Where dimensional or landscape standards cannot be met due to the prevalence of nonconforming lots in this zoning district or at an applicant's option, these requirements may be waived through a city commission monitored process aimed at producing development having design compatibility, meeting required parking to the maximum extent feasible, and achieving a high level of aesthetic appeal through a combination of innovative architecture, landscaping and hardscape materials. It is intended that permitted uses meeting applicable lot and building requirements be approved administratively, and those requiring special approval by the city commission be approved through the special exception process. Chapter 2, article VI, provides design regulations applicable to the Downtown Overlay District.
